Dear Bryan

Thank you very much for all your help with our wedding. It was perfect. Everyone raved about the Kadais - to the extent that lots of people are interested in buying them. Could you remind me what size Kadais we hired? I have been looking at the Wilstone website that Emma originally mentioned when she suggested we hire one from you and it looks as though the two that we hired were original Kadais and not the recycled Kadais - is this correct.

Sorry if my mother has e-mailed already but we have both been asked by friends and family to make enquiries!

Thanks

Paul
